

Quagliotti at Salone del Mobile Milano 2019: design projects guided by a tailor made spirit

Skilled craftsmanship, an attentive selection of raw materials, research, a sartorial approach and a passionate commitment, that for the past eighty years has led the company to take its activity to a level of excellence, are the outstanding characteristics of Quagliotti.

The new items being presented at the Salone del Mobile Milano 2019 are authentic “bespoke” linen collections for the bed, table and bath, dictated by a sartorial philosophy studied down to the finest detail.

Inspired by nature, the 2019 colour palette – Slate Rose, Blue Goblin, Dusty Blue – enhance the quality workmanship and the lustre of the fabrics.

“Arianna”, “Fortuny”, “Garda” and “Bellagio” are some of the names given to the collections being presented in the new colors, coordinated with “Hampton” and “Chevron” yarn-dyed coverlets.

Alongside geometric, floral and striped patterns of the bed linens – sheets, throws, quilts and pillows – and bath sets – including robes and towels – a new design called “Grains” makes its debut, defined by small shiny grains.

The sheen of double-twisted Raso embellishes the details of the table collection in the jacquard designs of “Ravello”, “Pompei” and “Liberty”. The new “Impero” inspires the most elegant table settings.

For our tiny tots, Quagliotti has created a Baby collection in soft pastel shades. Sheets, blankets, quilts, pillows, sleeping bags and robes made from cotton Raso or linen, embroidered with animal moms and their cub.
